Proline® Mechanical Pipettes
Affordable Reliability

The fact that the first mechanical pipette in the Biohit family, Proline, is still in use in many laboratories, testifies to its timeless, practical design and reliability. Being the most affordable pipette in Sartorius' range of mechanical pipettes, it is ideal for universities and colleges, or any laboratory seeking a cost-efficient liquid handling tool. Due to its relatively light weight, high accuracy and precision, it is also used by many professionals.

**Features and Benefits**

- **Wide range of pipettes, both adjustable and fixed volume**
- **Ergonomic finger support**
  - No need to squeeze the pipette during pipetting, reduces the risk of RSI
- **Clear volume display**
  - Easy to read volume minimises the risk of volume setting errors
- **“Do-it-yourself” calibration**
  - Re-calibration possible e.g. for different liquids
- **Tip cone material highly chemically resistant**
  - Highly durable tip cone
- **Safe-Cone Filters available for models > 10 µl**
  - Contamination-free pipetting
